Dear Jeff:

All of us at Century West Engineering thank you and your staff for a successful project at the Ken Jernstedt Airfield for the Port of Hood River. Your quality work, excellent communication, and prompt resolution of all project challenges were invaluable to the completion of this project within budget and timeframe.

In particular I'd like to thank you Jeff for your excellent coordination skills with myself and with sub-consultants, Karen Day for her responsiveness and attention to detail, and Walt Williams for his exceptional efforts to please the project owners.

It was a pleasure to work with you and we hope to work with you again soon.

Sincerely,

A handwritten signature in black ink, appearing to read "Erik J. Huffman".

Erik J. Huffman, P.E., P.L.S.
